

Multi-function glue station

Apply PUR Glue > simple and low cost
Pre-heat a new glue colour > quick changeovers

Key Advantages:

Quick and clean changeover from EVA to PUR glue and back again

Vacuum tank storage - slows down PUR crosslinking process

Easy purging and cleaning of PUR from tank when job complete

Pre-heat an alternative glue colour (requires second tank)

Designed to complement the new 'overhead' glue tank system on KDT Edgebanders.

It allows you to use both PUR and EVA glues with quick and simple changeovers.

Vacuum chamber delays the need to purge the PUR (time frames dependent on properties of PUR used)

POWER : 3 phase. 1710 W

WEIGHT : 164kg

DIMENSIONS : 830 X 620 X 862mm

Simple, Clever and very affordable
